

HARD AT WORK: Mitchell Womack, three, of Scawthorpe, plays with a miniature cement mixer provided by Derek Lewis Ltd.

Mini construction

CHILDREN were given the chance to try their hand at construction work after a company generously donated miniature toy tools and machines.

Derek Lewis Ltd gave the life-like construction toys to community group Families Together.

Tom Lewis and Darren Rhodes partners from the firm Derek Lewis Ltd donated the toys so the children

can use them at a number of community centres including Scawthorpe Great North Road Children's Centre and Bentley Children's Centre.

Janice Jinks, treasurer for Families Together said: "We can't thank the people at Derek Lewis Ltd enough, they'd thought of everything even down to miniature hard hats, the children will really benefit from this."
